

K4916

CARBON FIBER GLASS TOWEL

40 × 40 cm · 3 pcs per bag

An ultra-low-pile microfibre towel for cleaning glass and mirrors, and for polishing glass, chrome and metal. The compact weave and added carbon fibres increase friction for a gentle abrasive effect and a streak-free finish. Reusable and machine washable.

Supplied in a resealable, UV-protective zip-lock bag

RECOMMENDED APPLICATIONS

- Glass
- Mirrors
- Chrome
- Metal surfaces
